# Summer / Winter Schools

---

Studující Univerzity Karlovy mají možnost vyjet na celou řadu letních (a někdy také zimních) škol. Zpravidla se jedná o **krátkodobý studijní výjezd**, který je zaměřený na **specializované téma**, které je často spojeno s intenzivním přednáškovým cyklem, workshopy a (nebo) skupinovými prezentacemi.

Zahraniční letní školy jsou administrovány pořadatelskými univerzitami nebo institucemi. Na fakultě tedy neprobíhá výběrové řízení. Zahraniční univerzity nebo instituce však můžou požadovat potvrzení/nominaci/doporučení ze strany zahraničního oddělení domácí univerzity. V takovém případě je třeba zahraniční oddělení FHS požádat o vystavení takového dokumentu **s dostatečným předstihem (doporučujeme minimálně 20 pracovních dní) a žádost řádně doložit - podrobné informace k postupu najdete [zde](#)** .

Níže najdete některé pozvánky na letní školy v zahraničí, o kterých bylo zahraniční oddělení informováno pořadateli. **Tento seznam není úplný, další nabídky letních škol najdete třeba na portálu [Summer schools in Europe](#) , na portálu [Charles Abroad](#) nebo přímo na stránkách zahraniční univerzity, o kterou máte zájem.**

V rámci Univerzity Karlovy lze o finanční podporu na letní školy žádat přes [Podporu internacionalizace na UK](#) . Zahraniční univerzity v některých případech nabízejí studujícím [partnerských univerzit](#) odpuštění nebo snížení poplatku za letní školu.

**Největší množství pozvánek na letní školy se zpravidla začíná objevovat během února - května.**

Viadrinicum 2025 "Urban Dis/locations. Ruptures and Reimaginings" 16 – 31 August 2025; European University Viadrina, Frankfurt

Viadrinicum is an annual summer school at the European University Viadrina in Frankfurt (Oder), devoted to the countries of the Eastern Partnership and the larger context of Central and Eastern Europe. **Building on the discussions around the notion of learning city during the previous editions, in 2025 the school will focus on the ruptures in the urban fabric, both as the effects of (historical) negligence and abandonment, and as the traces of emancipatory disruptions in the established order of things.**

It invites students, young researchers, civil society activists, artists and cultural workers to critically interrogate the (institutional) foundations of the city as a contested entity in-the-making, shaped by regimes of urban planning and governance, property relations and dwelling practices. Guided by the spirit of tactical urbanism and participatory pedagogics, the school will look into the ways how alternative futures (re-)emerge through the (invisible) cracks of the city, aided by contingent spatial imaginations and the acts of collective un-/inter-weaving. Full description available [here](#).

**Successful applicants will be able to receive a travel scholarship. Accommodation costs will be covered by the organisers.**

**You can apply if you meet the following requirements:**

- You are a student, a PhD candidate, an (NGO) activist or an artist up to 35 y/o;
- You have a genuine interest in transsectoral and transdisciplinary approaches to the topics of the school;
- Your knowledge of English is sufficient to take an active part in discussions.
